# Find the Cars

# KACHOW

## **52 Weeks: #3 Find the Cars**

*Find the Cars* was inspired by my 3 year old and his love for Disney Cars. He loves anything pertaining to transportation; he is all boy; planes, trains and automobiles.

This game is an easy game to incorporate and extremely fun for any child who loves cars.

*Find the Cars* will only work if you are running on a sidewalk where cars pass by or on a trail that is parallel with the road. If you are running through a park, this probably will not be the Stroller Game for you.

**Target Age Group:** 2-4 years old

**How to Play:** Print the Free Printable *Find the Cars* game. Laminate it for future use and provide a washable marker. However, if you do not trust your child with a washable marker, print out the *Find The Cars* game when necessary and provide your child with a crayon.

Provide your child with the printable and explain to them that when they find a car or truck similar to the picture on the sheet, then to cross the automobile out. In my house, that generally means drawing a picture on top of the car, but it works and keeps my child occupied longer. You might not find these specific cars, but in our instance, we look for cars that are similar or have the same color and just make up some rules/guidelines as we go.

**Preparation Time (More Advanced Game):** 0-5 minutes time required (depends if you choose to laminate your sheets or not).

**Materials:**

- Printable
- Scissors
- Washable Marker or Crayon
- [Con-Tact](#) Self Adhesive Lamination paper (optional)

**Cost:**

FREE w/printable no Laminate Paper

With Laminate Paper: **\$3.59**

- [Con-Tact](#) \$3.59

*Disclaimer: Before incorporating any of these Stroller Runner Games, please ensure you warm up properly and stretch to avoid any injuries.*
